

WORKSHOP

NATURE-POSITIVE ECONOMY & FINANCING: NAVIGATING ECOSYSTEM RESTORATION AND PRIVATE INVESTMENT

19 October 2023 | 10:30am -11:45am

How to unlock the nature-positive economy: restore ecosystems with nature-based solutions, shift from exploitation to preservation, recognize the links between ecosystems, economies, and well-being for sustainability?

Join us for an interactive session where cities and regions discuss with expert speakers the opportunities and roadblocks on the road to nature positive. This will be followed by smaller roundtable discussions with participants on how to navigate the nature-positive landscape in your city or region.
