

# NATURETHON

CITIZENS GROWING NATURE-BASED FUTURES

*Welcome back, NbS enthusiasts!*

Over the past weeks, we have explored inspiring perspectives, expert insights, and hands-on approaches to Nature-based Solutions (NbS).

Now the [\*\*Naturethon Initiative\*\*](#) is **calling for submissions** of impactful projects for a nature-positive future, open until **December 8, 2025**.

The final and third Naturethon webinar, "[\*\*Financing local NbS for lasting resilience\*\*](#)," offered participants an overview of alternative financing systems and best practices in bottom-up NbS implementation. With the training series now complete, we are officially entering the most exciting stage: your ideas take center stage.

👉 We look forward to exploring and reviewing your local solutions!

# Share your NbS ideas!

Final insights from our experts

>We recently hosted a finance-focused webinar where leading experts showcased new tools designed to help communities and Naturethon participants fund and strengthen Nature-based Solutions.

During the event, **Lenka Slavikova** – University of Jan Evangelista Purkyně in Ústí nad Labem, Czech Republic – introduced the [Land4Climate NbS Alternative Financing Guide](#) for exploring funding beyond public sources, while **Jaroslav Mysiak** – Euro-Mediterranean Center on Climate Change and [NATURANCE](#) project coordinator – highlighted financial strategies linking insurance and nature to strengthen community resilience.

[\*\*WATCH BACK\*\*](#)

## Last-minute inspiration: Naturethon resources

All the resources available to draw final inspiration from the scientific insights developed within Naturance and beyond.

### Revise all the Naturethon materials
